Write code and connections in wowki for ultrasonic sensor.

Whenever distance is less than 100cms send “alert” to IBM cloud and display in device recent events.

Program Code:

```
#include "Ultrasonic.h"
```

```
Ultrasonic ultrasonic(6,2); int
```

```
distance; void setup()
```

```
{
```

```
Serial.begin(9600);
```

```
}
```

```
void loop() {
```

```
distance = ultrasonic.read(CM); Serial.print("Distance  
in CM: ");  
Serial.println(distance); if  
(distance < 100)  
Serial.print("alert");  
Serial.println(); delay(3000);  
}
```

OUTPUT:
